 'Fresh from the gardens'

### Respect For The Law

Views entertained by people with respect to the majesty of the law seem to be divided into two main classes—those who regard the laws of their country as having been enacted primarily for the protection of the rights and liberties of the people, and, in the second group, those who act as if they considered all laws an infringement upon their rights and a denial of liberty to which they feel themselves entitled.

Speaking in a large and general sense, the former view is entertained and upheld in Great Britain, while the second view apparently animates a very large percentage of the people of the United States. Public conception of the functions of the law in Canada is divided between these two groups. Canada's judicial system, its code of laws, and its ideals and methods of law enforcement, are based on the laws of England, and have come down to us through the centuries, with precedent built upon precedent. But, on the other hand, living next door to the big republic, and with a daily intercourse which is not possible to the same extent with Great Britain, our people are naturally and insensibly influenced and affected by the prevailing trend of thought across the line.

Public concepts of the functions of law are the foundations upon which a nation is reared. It is, therefore, of vital importance that those concepts be sound and firmly established in the minds and ideals of the people. Throughout the United States today no one thing is causing public men, and the more seriously minded portion of the people, greater concern than the breaking-down of law in that country. Apart from the disastrous effect on the morale of the people, it is costing them in dollars and cents more than all the taxation imposed by governments, both Federal and State.

The trouble with the United States is that people have developed the belief and the younger generation is growing up in that belief, that they can defy the law with impunity and get away with it; that laws are not designed for their protection, but quite the reverse; that courts and policemen are their enemies, not their friends and guardians of their rights and liberties.

Children hear the threat: "The cop will get you if you don't watch out," and even when engaged in innocent play the cry is raised, "Here comes a cop, let's beat it." In that way, it is only to return when the policeman has passed by.

In England, and largely so in Canada, an entirely different atmosphere, a different conception prevails. A policeman is not an enemy, but a friend, one to whom you can appeal when in trouble or difficulty.

We must, for our own good, maintain this attitude, and because of our proximity to the United States, and the constant intercourse between these two countries, it is essential that in our homes and schools the true conception and meaning of "the law," and the officers of the law, should be constantly taught and stressed. All law, in the beginning of law enactments, and but one object, the protection of the rights and liberties of individuals and communities against those who would deny those rights, usurp our liberties, and demand to us of our property.

Law is the reverse of lawlessness, it is orderly government as contrasted with mob-rule. It is the only safeguard against anarchy. Therefore, "the law" is something to be held sacred, to be upheld, to be obeyed, not to be regarded as something irksome, an evil, necessary perhaps for some, but to be defied if one so desires. Laws should not be regarded solely or merely as prohibitions, restraints upon one's conduct. In their essence they are not prohibitions, but rules of conduct, guides to follow, measures of protection.

In the final analysis, law is but the view of a majority of the people as to what they consider in their own best interests. It is their own formerly expressed will. That being the case they should respect and obey it. A minority opposed to any given law should nevertheless respect and obey it as the will of the majority, just as they expect and insist that others shall respect and obey laws of which they approve, but which some of those others, who may constitute a minority in opposition to themselves, consider unnecessary.

Disregard of law will undermine the home, the nation, and ultimately rob the individual of his own freedom and liberty of action.

#### Size Of Bee Colony

An interesting experiment has been under way for the past five years to determine the approximate field force of a normal colony of bees. During this period, thirteen calculations have been made by officers of the Department of Agriculture, the figure varying from 22,187 to 59,667, but only on two occasions did the number fall below 31,000. It is reckoned that approximately 5,000 bees weigh a pound.

#### Popular Taste In Movies

Producers declare that really artistic films fail to draw at the box office. Those who are demanding "art" in motion pictures seldom are willing to risk their money in experimentation. The film theatre is not like a store where one may stock grades of goods to suit all tastes. The only successful movie house is one where a large percentage of the films shown please a majority of the patrons. — Los Angeles Times.

### Palpitation Of The Heart Nerves Were All Gone

Miss Rose Griffin, Ashden, Man., writes:—"About five years ago I was troubled with palpitation of the heart caused by a shock and my nerves were all gone and I could not sleep. I read about Milburn's Heart and Nerve Pills and decided to try them. After I had taken three boxes I was feeling fine again. I think they are a wonderful remedy, and wish all others who suffered as I did would give them a trial."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

### Canada's Fine Record

People Have Adequate Protection Through Solvency Of Banks

In the last thirty-seven years Canada has had 12 chartered bank failures whose total liabilities amounted to \$7,758,900. In the same period 8,470 United States banks have failed with liabilities of no less than \$3,751,370,000. On a strictly comparable basis, and after adjustment for the difference in population. This means that liabilities of U.S. banks which have failed have been four times those of Canadian banks.

According to official decennial census figures over the past forty years, average population of the United States during this period has been approximately 12 1/2 times greater than that of Canada. This a simple multiplication of the liabilities of Canadian banks which failed in the 37 year period, by 12 1/2, indicates that if Canada had had the same population as the United States during this period the liabilities of failed banks would be approximately \$900,000,000, or less than one-quarter of the liabilities which have been relied upon under the United States banking system since 1893.—Financial Post.

Genuine Gratitude

### Compels Tribute.

Mr. Victor Hills, of Thornton Heath, writes:—"I have suffered with that distressing complaint—constipation, and its attendant effects of sick-heads, indigestion. It was a red-letter day for me when a friend recommended me a treatment of Carter's Little Liver Pills, and I can honestly say that results have been truly marvelous. I now enjoy good health and feel that life is worth living. The relief I have experienced compels me to add my sincere tribute." Take Carter's Little Liver Pills. All druggists 25c and 75c red pills.

### Alberta Oil

Production Last Year Close To One and One-Half Million Barrels

Alberta produced close to one and one-half million barrels of oil in 1930, comparative figures from the provincial department of mines reveal. The total 1930 output was 1,433,844 barrels which compares with 999,152 in 1929, an indication that Alberta's oil bubble is steadily expanding. Synthetic oil from Turner Valley limestone was the leading product with a total of 1,314,039 barrels. Light and heavy crudes accounted for the balance.

## Wonderful For Indigestion!

When your stomach feels bad; when Gas, Bloating, Nausea or after-dinner pain make you feel uncomfortable, and those of you who are "indigestible" will find almost instant relief.

For indigestion, this prompt effectiveness of FISH LIVER OIL is really wonderful. Even the most obstinate constipation, indigestion, flatulence and indigestion to name. Ask your druggist.

### Ayrshire Breeders

Association Received 76 Reports In January Of Cows That Qualified

The Canadian Ayrshire Breeders' Association reports that during the period from January 1st to 26th it received 76 reports of cows and heifers that qualified in the R.O.B. in the 365 day division and 39 in the honor roll or 305 day division. In the first classification 11 qualified in the mature class; 4 in the four year old; 7 in the three year old, and 15 in the two year old class. Thirty of the records were made on two milking a day.

Greene (making up the wholesale order for the week). Jim, do we want any day-old eggs?

Clerk: No, sir. We have enough in the store room to last another six weeks.

W. N. U. 1939

### Radio Gaining In Popularity

493,120 Receiving Sets In Use In Canada At End Of January

At the end of January there were 493,120 radio receiving sets in Canada under licence or about one radio for about 20 persons in the country. The total of licensed receiving sets at the end of January was 69,030 more than the number in use at the end of the 12 month period of the Canadian Government fiscal year 1929-30. Toronto has more radios than any other city, with 77,184 at the end of the first month of this year. This total is nearly 15,000 more than was registered at the end of March, 1930, the close of the government fiscal year. Montreal is credited with 14,378 sets; Hamilton, Ont., with 16,932; Vancouver, with 19,939, and Winnipeg with 19,435. A charge of \$1 per year is made by the Canadian Government for a licence for a radio receiving set. Licences are issued free to the blind in Canada and the latest report shows 659 such licences have been issued.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism. This can be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

### World's Grain Exhibition

Work is now under way towards the erection of two new grain buildings for the World's Grain Exhibition and Conference at Regina in the summer of 1932. The buildings will have 48,000 square feet of space, being 640 feet long with two wings of 320 feet each.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child because its action, while fully effective, is mild.

### Expect Large Sales

Season tickets for air travellers are being introduced in Europe with success. The Air Union is issuing them for use in England and nearby countries and expect a large sale this year. Passengers using them will save a third of the regular fares.

Hull, England, will devote \$27,230 of the profits from the municipally-owned telephone system to reduction of taxes.

## READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham's Vegetable Compound

Moneton, New Brunswick:—"Before my last baby was born I was very weak, nervous and discouraged. I saw an advertisement in the paper about Lydia E. Pinkham's Vegetable Compound. I took three bottles and I carried me safely through this critical time. I have three children to care for and I feel well and strong. I have told two other women about your medicine."—Miss Gus Anas, care, 82 Albert Street, Moncton, New Brunswick.

### Railways and Air Routes

Joint Rail and Air Services May Be

Air development, more particularly as they affect the operations of a large transcontinental transport system, are being closely watched by the Canadian Pacific Railway with a view to the inauguration of joint services, when the time is considered opportune, it was stated recently by E. W. Beatty, president of the Canadian Pacific Railway.

"If the development in air services, which is progressing satisfactorily, demands joint rail and air services, they will undoubtedly be provided by the Canadian railways," said Mr. Beatty.

Cactus Plants Need Water. A botanist points out that people who grow cactus plants in pots often fail to water them, forgetting that in the desert the cactus stores up water in a well-developed root system.

### Corns

INSTANT relief! PUTNAM'S Corn Extractor

## Purity Flour Cakes Keep Fresh

A cake shown at Toronto Exhibition made from this Recipe kept fresh for five days in the heat and air without protection. Make it today—with Purity.

1 cup of white sugar, 1/2 cup butter, cream together, add 1 beaten egg yolk, 1/2 cup milk and water. (Oats—wheat, mix 3 teaspoons baking powder in 1/2 cup of PURITY FLOUR, pinch salt, 1 teaspoon vanilla, cream with air in mixture. Bake in moderate oven (375°) for 20 minutes.

Look for our Company's name on the Purity Flour sack. It is your guarantee of quality from a responsible milling concern.

## Churchill Townsite Opening May Be Necessarily Delayed Until August Of This Year

Not until August—if at all this season—will Churchill, Manitoba's new Bay resort, be opened to the public. Officials of the Manitoba Government, masters of the townsite, are seeking to surmount problems which threaten to delay the town opening until August, a time so late it may be deemed better to wait until next season.

Clamoring hundreds ask permission to "get in on the ground floor" this summer at the rock-girt terminal of the Dominion Government's Hudson's Bay Railway. Business men, adventurers, pioneers who tend irresistibly toward the north—these are the folk who are eager to be residents at Churchill when the Britain-bound freighters first steam wheel-about across the Bay.

Opening of the town to the public will terminate the "engineers' paradise" which has existed since old Mike O'Shea's extra gang laid first steel into Churchill in the howling March gale of two years ago. Entry into Churchill has been allowed only on special permit, and workers engaged in track-laying, harbor building and elevator construction have been under strict surveillance of their employers.

Beyond the establishment of a trip of banks and the operation of a canvas-walled movie show blown down by the Bay gates, commerce has made virtually no appearance at the West's northern harbor. Food is served at the camp mess, sleeping quarters are provided, and work is there to be done; only bare necessities may be obtained by purchase, so that most workmen finish a season at Churchill with a real "stake."

Premise of export of shipping at Churchill this fall, if only for a few weeks in late September and October, has occasioned a new rush of applications to set up postrooms, barber shops, restaurants and general stores at Churchill. The Dominion Government has pledged its effort to ship 750,000 bushels of wheat—three good-sized boat cargoes—this fall. Pless from Saskatchewan still ask shipments of as much as 5,000,000 bushels of wheat.

In planning a decision on the townsite opening, the Manitoba Government is undecided to be most concerned with the question of whether adequate preparations for an ingress of major proportions could be made by the beginning of August. It is believed unwise to permit settlement at a later date this season, lest new residents be caught unprepared for the rigors of the sub-Arctic winter. Postponement until next spring may be considered advisable.

Fire protection regulations rank among the most important matters to be settled in connection with the site proper especially if the winter supply is to be limited; yet officials realize that too drastic regulations will meet with pronounced opposition from the rough-and-ready pioneer type certain to predominate among early Churchill residents.

Indications are that fireproof, or at least semi-fireproof, buildings will be demanded within the limits of a certain portion of the townsite proper, which will be located on the

rocky point forming the south side of the Churchill river's mouth. Possibilities that squatters may set up their two or three board "shacks" beyond the restricted area are foreseen, regretted—but not immediately disposed of.

Present plans of the Dominion Government are to bring water from the Rosabelle Lake area, three miles south of the townsite, by means of a raised aqueduct insulated against wintry cold.

Engineers who seek even greater assurance of permanent adequacy, favor piping water from above tide-water on Churchill River, about seven miles upstream from the town. Technical opinion differs as to which is the better plan.

Use of pumping equipment in connection with pipes from above tide-water, some engineers claim, would provide unlimited water supply and reduce fire hazard. Under this system, lines might be laid in the river bed, out of the reach of frost, virtually an ever-present threat in the Churchill area.

Drainage of the townsite, to be laid out within a few hundred yards of the towering 2,500,000-bushel grain elevator now under construction, is looked on at least partially as a problem. Water, seeping down from the ground surface, reaches the permanent frost line and is unable to penetrate further. It gathers along this level and if a rise in the frozen substratum is encountered, the water comes to the surface, resulting in a permanently marshy area.

Beyond these major problems, the Manitoba Government must yet locate its main sewage plant, mark out the streets and avenues for the port north of '58, designate the location of the more important buildings to be located, and so on. Tentative decisions have been reached on most of the questions, but the uncertainty still remains as to whether Churchill can be host to its first citizens in time to settle them comfortably for the cold weather.

### Puts In Eight-Hour Day

**Frenchman 60 Years Old Works As Stitcher In Bookbinding**

In these times of general business depression and unemployment the great fear of Helene Bonnet, who works as a stitcher in a bookbinding shop in Paris, was that she might lose her job. She knows how hard it is to find work when you reach "a certain age."

It happens that Helene Bonnet has reached "a certain age." As a matter of fact, she is 101 years old, which does not prevent her from putting in an eight-hour day with the best of them. But she would never consent to tell her age. Neighbors and fellow workers imagined that she still entertained matrimonial hopes. They were hopelessly wrong. Helene feared the loss of her job.

### Put To New Use

**Playing Cards Are Now Being Made Of Aluminum**

Aluminum is being used more and more for all sorts of purposes. It is being used for cables that carry electricity across country from power stations, in place of copper, and its latest use is in the making of playing cards.

These have the usual colored faces and backs and look and feel like ordinary cards, except that they are a little heavier. In the oval air they will not blow away as do those made of cardboard, and if they become soiled they can easily be washed, which is a great advantage.

It is interesting to remember that aluminum, although one of the commonest of all metals, being found in clay, was only discovered so recently as 1825 by Frederick Woehler, a German.

The United States supplies the world with practically all its rubber erasers and rubber bands.

### COVETS CAMPBELL'S RECORD

Norman Wizzard Smith, Australian speed king, who will shortly make an assault upon Capt. Malcolm Campbell's world land speed record of 245 miles an hour, driving a car now under construction in Sydney, and with speed tests in New Zealand.

### Opportunities In Sheep-Raising

**Imports Of Mutton And Wool Exceed Production, Growers Are Told**

With Canada consuming more mutton and using more wool than it produces, there is much opportunity for development, G. E. O'Brien, of the Co-Operative Wool Growers' Association, told the Ontario Sheep Breeders' Association at its annual meeting in Toronto. Mr. O'Brien stated that in the past 15 years lambs had increased from 2,000,000 to 3,500,000.

Canada consumed 57,000,000 pounds more mutton than she produced. Dr. J. H. Grisdale, Canada's Deputy Minister of Agriculture, told the association. Lambs brought in for food purposes were inferior to Canadian lambs, he stated, and forecast some changes in regulations governing imports of sheep and wool products.

### Potato Harvest Of 1930

**Average Yield Shown At 85.6 Cwt. Per Acre Of Land**

The preliminary estimate of the total yield of potatoes in Canada, in 1930, is 49,160,000 cwt. from 574,500 acres, or 85.6 cwt. per acre, as compared with 39,530,000 cwt. from 463,727 acres, or 73.4 cwt. per acre in 1929, and 48,090,950 cwt. from 555,707 acres, or 86.5 cwt. per acre, the average for the five years 1924-28. By provinces, the average yields in cwt. per acre are, in order, as follows: New Brunswick, 115.7; Nova Scotia, 113.6; Prince Edward Island, 105.0; British Columbia, 92.0; Alberta, 86.7; Manitoba, 85.7; Ontario, 78.4; Quebec, 78.9; Saskatchewan, 63.4.

## More Balanced Production Of Livestock In Canada Is Need Of Agriculture

For several years farmers have been urged by those concerned in marketing farm products to take advantage of the many and varied fields open to them. In the best of that advice there was always the expressed desire to see more balanced production rather than the specialization in some staple to the neglect of others. The necessity of balancing production has been abundantly shown by the experience of the past months. Concentration on the export of grain, with a consequent framing of all policy in that direction, has been found to be unwise. When the inevitable day of low grain prices arrived there were not sufficient alternative sources of revenue.

If the advantage of having an alternative market for coarse grains, for instance, had been kept steadily in mind a policy would have been framed that would have favored cheap and efficient distribution of feed to livestock farmers in this country. If such conditions had been fostered, farmers in consequence would have had a volume of hogs during 1929 and 1930, which would have made very good profits indeed in the export bacon market and have had reasonable numbers of pigs to take care of a large part of the present crop of coarse grains, which is almost unsalable in the export markets. The export price for bacon is now very low but much of the grain that for some time has filled our elevators might have been marketed in the form of bacon before this happened.

In the meantime European countries have fostered hog production and with cheap feeds have reaped big profits for the past couple of years. Now there is a glut of this product on the British market. But with extremely cheap feeds there may be no let up of production. It seems certain that the cream of profit in bacon for this period has been skimmed by the countries that had their production organized when prices were high.

Balanced production calls for an increase in livestock and livestock products in Canada, and the shaping of policies to that end. It does not, however, contemplate such things as wholesale rushes into hogs for the mere purpose of eating up unsalable grain. When the grain situation straightens out export of grains will again form a very big part of Canada's business. But never again should it be permitted to engross attention

to the neglect of an increasing volume of livestock products.

Steadiness in volume of supply is of equal importance to the well being of the Canadian hog and bacon industry as quality of product.

History shows that the most disturbing element in production is that those now rushing into hogs will not "stick" if low prices for their first glut of product should give a temporary set-back and discouragement. A rush out of hogs next fall would again set up the old cycle of gluts and shortages on perhaps a worse scale than ever.

Immediate prospects in the Canadian hog industry emphasize more than ever the need for more balanced production, less "putting of all eggs into one basket." In general, and less focusing into any one line that offers tempting profits merely because of conditions brought about by shortage rather than by the inherent value of the article. No sound industry can be built up if the bulk of producers quit when prices happen to fall and then come rushing back when prices rise in a way to create a glut and thereby again to disorganize the market. Such a policy hurts those who stay in steadily and gives no real profit to the risk and error.

The imperative necessity for a better agriculture in Canada now is better regulated and more balanced production of all livestock, so that steady markets may be developed for the products which livestock yield.

### Russia's Wheat

**Program Provides For Increasing Production From Year To Year**

Russia's wheat crop in 1930 provided an exportable surplus of about a hundred million bushels, but next year, according to the Fish Report, it is planned to make that surplus two hundred millions, even though Russians go hungry. If it succeeds there will be practically no European market for the United States, as the American farmer cannot compete with grain raised on confiscated land by labor receiving an average of fourteen cents a day. But that is not all. The Russian Government's programme is to drive its farmers to still heavier wheat production, and it hopes by the fall of 1932 to bring its surplus up to five hundred millions.—Duluth Herald.

### Dairy Industry In Canada

**Domestic Consumption Of Dairy Products Rapidly Increasing**

In a review of the dairy industry in Canada, Dr. J. A. Radcliff, Dominion Dairy Commissioner, said that since 1921 domestic consumption of dairy products in Canada had increased to the extent of 354,529,347 pounds of butter fat equivalent. This is made up of an increase of 72,767,601 pounds in butter; 32,857,919 pounds in cheese; 2,541,961,924 pounds in milk, and 1,875,322 gallons in ice cream.

### Trade With Russia

Canada's total imports directly from Russia last year were \$1,964,000, of which all but slightly over \$841,000 was the value of food brought in from Russia. Canada's imports the previous year totalled \$914,000. Exports to Russia from Canada in 1929 were \$1,629,000, and the year before, \$2,305,000.

Here they are, "Sandy" and "Earl," old friends of 16 years' standing, although Earl has had 18 years and Sandy Campbell, 30 years with the Canadian Pacific Express Company. His years of steady service in picking up and delivering goods for the company has given Earl such a knowledge of his route, which covers the area of downtown Toronto around Bay and Adelaide Streets, that he trots up and down the streets without any help Sandy gives him no orders for he knows his route as well as his driver. Earl is here shown mutely making Sandy to carry on with his next delivery.

"I am sorry I was not at the opening of your restaurant."

"You flatter me, sir."

"Yes, the food may have been fresher than it is today."—Hummel, Hamburg.

W. N. U. 1930

"An alarm clock in the hen house?"

"Yes, the young cock woke up the neighbors early in the morning. Now I hope the eggs will be better."—Dorff-barber, Berlin.

**"Canada On Parade,"  
Over the Air, Friday**

Over 25 stations from coast to coast. This eagerly awaited all-Canadian broadcast sponsored by General Motors of Canada Ltd. makes its debut to Didsbury radio listeners over station CKLC, Calgary, from 9 until 10 o'clock in the first half of a series of regular one-hour programs each Friday night.

Hearing the compliments of General Motors of Canada and General Motors dealers from the Atlantic to the Pacific, "Canada On Parade" will begin a celebration of the Dominion by emphasizing its history, its greatness and its future. Orchestras, singers, people of the stage, writers, statesmen—all will join in this pageant of the country, and Friday night's first program may be accepted as characteristic of the diversified themes to follow.

Opening the parade, the General Motors concert orchestra with Dr. Ernest McMillan conducting, will play the overture "Figaro" of Mozart. This will be followed by an ensemble of gifted vocalists, the "All-Canadian Singers" under the direction of Dr. Healy Willan, rendering a miniature glimpse of Gilbert and Sullivan's classic, "The Mikado," with Lady Grace DeWolfe as "Nanki Poo" and Miss Enid Gray as "Yum Yum."

As the "Guest-artist" from overseas, a feature that will be established each week, the first broadcast will present Louis Masy, of the "Opera Comique," one of the greatest of French singers.

**HAMBLEY ELECTRIC  
CHICKS for SUCCESS**

If you want pullets laying next fall and winter, now is the time to order your chicks and be in line for higher egg prices next fall. Hambley Electric Chicks are hatched from the best Pure Bred-to-Lay Rocks. During the past winter we have had eight well qualified flock inspectors coming, selecting and blood-testing the flocks that supply our eggs. We guarantee 100% Live Arrival.

**LOCAL & GENERAL**

Scratch Pads may be obtained at the Pioneer Office, 2 for 5 cents.

Miss Margaret Hardy spent the Easter holidays at Turner Valley.

Mrs. Ernest Clarke visited in Calgary on Wednesday.

The Misses Grant, of Calgary are spending a few days with Mr. and Mrs. W. Gillette.

Mr. and Mrs. A. McGregor, of Calgary spent the week-end with Mr. and Mrs. Geo. Watson.

Mr. C. F. Rennie, who has been occupying the Leadbetter residence is moving to the house lately vacated by Mr. J. Clarke.

Lennie Berscht and Tom Clarke went to Calgary on Wednesday to see "Hell's Angels."

Lester Stauffer left yesterday for Gahnah, Alberta, where he will be working this spring.

Mr. W. Ross, formerly of the Calgary Power Co's. Edmonton office has been appointed manager of this district in succession to Mr. J. Dons, who has been transferred.

The Southern Alberta Conference of the Lutheran Church will be held at Westcott, April 14th to 18th. A number of ministers from the district will be in attendance.

The Easter bazaar given by Knox Lutheran Church Ladies Aid at the Opera House last Saturday was well attended and the ladies are very pleased with the success of their efforts.

Alberta will permit homestead entry in certain specified areas, but restrict this to persons of the full age of 17 years, British subjects or with the intention of becoming British subjects, and who have resided in the province for a period of at least three years. Regulations to this effect were approved of by the provincial house at its sitting on Saturday afternoon, when the new Alberta Lands Act was finally passed.

A report from the west reaches us that the Cartier Oil Company has "saddled in" and the huge belt is now pounding its way in search of crude oil in the old Monarch oilfield area. All eyes will be focused on the west country, and from the time the gas is encountered, which is almost assured, the town and country people will experience a state of excitement until the fate of the well is known. Fast time is expected in the drilling process, as the equipment is very modern and the camp is considered the best in the western oilfields.

OLDS GAZETTE.

**Judicial Sale of Farm Property  
By Tender.**

Pursuant to the Order for Sale and the directions of the Master in Chancery, Edmonton, Alberta, sealed tenders will be received for the purchase of:

S. 12 sec. 23, tp. 31, rg. 27, W. 4th M. except out of S. E. qr. 2.04 acres more or less and out of S. W. qr. 2.01 acres more or less; All for road way 399 B. M. The land here containing 315.18 acres more or less. Reserving unto the Calgary &amp; Edmonton Land Co. Ltd. all mines and minerals and subject to the conditions and reservations contained in the Original Grant from the Crown or in the existing Certificate of Title and subject to all taxes, rates and assessments imposed subsequently to the 1st day of January, 1931. The vendor is informed that the S. W. qr. 23 has 60 acres under cultivation and 70 acres more could be broken. Three sides are fenced.

The S. E. qr. 23 has 133 acres under cultivation. Three sides are fenced.

All the land is about 5 miles from Athabasca and 2 miles from a school. There are no buildings on the lands.

Tenders may be made for the full section or for each quarter section separately. The upset price for the S. W. of 23 is \$1,200.00 and for the S. E. of 23, \$2,400.00.

Tenders must be in sealed envelopes, marked "Tender S.C. 2303," addressed to Mr. V. H. Hain, Esq., R.C.M., Master in Chancery, Court House, Edmonton, Alberta, and must be in the hands of the said Mr. V. H. Hain not later than 11 o'clock on the 16th day of April, 1931.

TERMS OF SALE: Each tender shall be accompanied by a marked cheque or cash for 10% of the amount of the tender and the balance of the purchase price shall be paid (unless the time is otherwise extended) into Court within 90 days after acceptance of tender without interest, or in the alternative, the purchaser shall execute a mortgage for the sum of \$25,000 on S. W. 23 and \$25,000 on S. E. 23 which shall be a 1st charge on the land and the remainder of the purchase money shall be paid into Court within 90 days after acceptance of the tender without interest. The mortgage shall be for a term of 25 years, payable as follows: the sum of \$75.00 on the 1st day of December, 1931 and shall bear interest at the rate of 5% per annum, payable yearly. If the mortgage is on all the land, then the annual payment shall be \$150.00. The deposit of 10% shall be forfeited by the successful tenderer if he refuses to carry out the purchase after acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof. The highest or any being not necessarily accepted. In all other respects the terms and conditions of sale will be the standing conditions of sale of the Sturgeon Court so far as they are applicable hereto.

For further particulars apply to:

## Spirited, Flexible, Quick-Handling

It is a real pleasure to drive a car so alert and capable in performance—so quick to respond to your fingers' touch—as the new Chevrolet Six. When you drive it you will discover agile acceleration . . . sustained speed . . . ample power . . . and smooth, silent operation under all conditions. You will be pleased with the larger 3-spoke wheel and the newly-designed steering gear, which permit fingertip control in turning and parking. Gear changing is exceptionally easy. And the big, four-wheel weatherproof brakes grip instantly and evenly, even on wet pavements.

Come for a Chevrolet ride. Know the thrill of driving this Six which is unusually economical to own, and easier than ever to buy.

PRICED FROM \$610 AT FACTORY, OSLAWA - TAXES EXTRA

## How To Lose 24 Pounds of Fat

At the Same Time Gain in Physical Vigor and Youthfulness and Swiftly Possess a Clear Skin and Vivacious Eyes that Sparkle with Health.

It's the recipe that banishes fat and brings into bloom all the natural attractiveness that every woman possesses.

Every morning take one-half teaspoon of Ruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the daily dose that takes off the fat"—don't miss a morning. Ruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Moderate your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are toned up, and the pure, fresh blood containing these salts is carried to every part of the body, and this is followed by "that Ruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

## FREE TRIAL OFFER

It's my hope that every woman who has an excess of fat will be able to get some special "CLAY" packages which make it easy for you to lose your extra pounds. Ask your druggist for the new "CLAY" 25c package.

This version of our popular 25c bottle together with a separate trial bottle—sufficient for about six weeks. Open the trial bottle first, put on the seal, and then, if not entirely convinced that Ruschen daily is the best thing for you, return your bottle in still in good as new. Take it back. Your druggist is authorized to return your 25c, immediate and without question. You have read Ruschen Salts at our expense. What could be better? Manufactured by E. C. Ruschen, Hudson, N. J. Distributors, The Clarks, Ltd., Importers, McLaughlin Bros., 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

## WORLD HAPPENINGS BRIEFLY TOLD

Additional funds to combat tuberculosis among Indians will be asked from the parliament, a report of the Department of Indian Affairs reveals.

Canadian Indians, in 1929 numbered 168,012. The Department of Indian Affairs reports. One-half are listed as Roman Catholics.

More than \$25,000,000 was spent by the British Government in the last fiscal year to help finance projects for providing work for the unemployed.

More definite protection for the agricultural debtor from foreclosure was sought by the board of the United Farmers of Canada, in session recently at Saskatoon.

The council of London, Ontario, has decided to support the Winnipeg resolution favoring the setting aside of the day after Christmas as a holiday.

The "rock pile" will be restored to all Ontario reformatories and jails in the belief that reformation is best accomplished by hard and productive work. Prisoners will be provided a struggle to prevent the danger of injury.

## Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the rooster on the wrapper, it's just what it is. Tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy. It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or other disturbances, it is invaluable. A cooled bottle calls for just a few drops to ward off constipation, so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—the pure vegetable preparation is usually all that's needed.

W. N. U. 1280

## Tuberculosis Among Indians

Appeal To Parliament For Additional Funds To Combat Disease

Special appeal for parliament for additional funds with which to combat tuberculosis among Indians was foreshadowed in the 1920 report of the Department of Indian Affairs. So many deaths have been placed on the appropriation for this purpose that "at the present time it is being found necessary to refuse applications for sanatorium treatment," the report stated.

Tuberculosis was described as the most potent disease to which Indians were victims. The report regretted that more progress was not being made in combating its progress.

"There are several reserves," the report said, "where the number of infectious cases is so small that the disease might be stamped out if it were possible to devote the whole of the appropriation for this purpose to these reserves. But equally strong appeals for help come from almost every reserve. At the present time it is being found necessary to refuse applications for sanatorium treatment due to lack of funds for maintenance. The department appeals to the interest of parliament for funds with which additional personnel and facilities may be provided. The proper course undoubtedly is to attack the disease in its weakest places, namely on reserves where there are small numbers of cases, and where the resistance of the Indians to it is relatively high."

## Effectiveness Of The League

Building Up Friendship and Understanding Among the Nations

In a tenacious, plodding sort of way it goes on month after month building up friendship and understanding among the nations. Even Uncle Sam has been roped in. The latest "monthly summary" of the League's doing to hand records the election of Frank E. Kellogg in succession to Charles Evans Hughes as a member of the Permanent Court of International Justice. Other events of the month were the signing of a Treaty of Friendship between Sweden and Persia and the settlement of an argument between Germany and Czechoslovakia about the use of the port of Hamburg. Little things, of course; but they help.

To many intelligent people of this generation war is no doubt inevitable, but there was a time when small-pox and other terrible plagues were inevitable, too. By sanitation and vaccination, however, those scourges have been robbed of their sting. The League of Nations is a laboratory in which vaccines and prophylactics are being prepared against war. To suggest that they are bound to prove useless is to discount the prophetic vision and wisdom of the men who created it.

Little things, of course; but they help. To many intelligent people of this generation war is no doubt inevitable, but there was a time when small-pox and other terrible plagues were inevitable, too. By sanitation and vaccination, however, those scourges have been robbed of their sting. The League of Nations is a laboratory in which vaccines and prophylactics are being prepared against war. To suggest that they are bound to prove useless is to discount the prophetic vision and wisdom of the men who created it.

**NO MORE ECZEMA**  
Itching Ends Right Away  
"I had eczema for several months. Single application of BUCKLEY'S made me feel better. Right away. My skin is now clear." Jane Pauls, Montreal. "I am glad to say that my eczema, itching, stinging, weeping, is all gone." Allidrogos.

**Chest Colds**  
Yield to this Treatment  
Redden chest with hot wet towels; rub on—apply thickly  
**VICK'S VAPORUB**  
OVER 12 MILLION JARS USED YEARLY

**New Radio Treatment**  
Professor Steibstock of the Vienna polyclinic, recently has been using three meter waves from a one-half kilowatt radio transmitter for treatment of inflammation of the lungs such as is associated with influenza; cases of cancer and internal suppuration. He claims to have had encouraging success.

**Persian Balm**—Invaluable to a whole family. To the mother, a flawless aid to loveliness. To the child, a soothing, healing balm. And to the father, a splendid hair fixative and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes hands delightfully soft and white. Indispensable to dainty women. A little gentle rubbing and it is absorbed by the tissues, making the skin truly rose-leaf in texture.

**Smallest Working Locomotive**  
What is claimed to be the smallest working locomotive in the world, made by J. J. Langridge, of River-side, Isleworth, Middlesex, is exhibited at the Wimbledon and District seventh annual exhibition at Wimbledon, England. The model, which runs by electricity, can be almost entirely covered by a postage stamp.

## Manitoba Mining Industry

Over \$62,000,000 Is Now Invested In This Industry

Hon. D. G. McKenzie, Minister of the Department of Natural Resources for the Province of Manitoba, reports a twenty per cent. increase in Manitoba's mineral production for 1929 over the previous year, the total production amounting in value to \$5,428,825.

Capital invested in the Manitoba mining industry is now computed to be over \$62,000,000.

The year 1929 was the best yet in the mining history of Manitoba in the matter of advances towards mineral production. Mining expenditures that year were 15 per cent. over the previous year's figure of \$12,500,000.

Fruit acids, paradoxically, counteract the acid effects of certain foods in the diet.

**Acts like a Flash**  
on Coughs & Colds  
A speedy, safe, proven remedy for children and adults.  
**BUCKLEY'S MIXTURE**  
Asthma, Cough, Croup, Whooping Cough, Sore Throat, etc.

## Slump In Watch Industry

The watch-making crisis in Switzerland appears to have been reached. July, 1929, was the poorest month in years, only 114,000 cases being turned out. But the heaviest decline has been in pocket watches and automobile clocks. The clocks, most of which in former years were exported to the United States, have nearly disappeared from the market.

**Cut Down Food Waste**  
---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them. You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

**Distributors: JOHN A. CHANTLER & CO., LTD.**

Mrs. H. D. ROOKER,  
Didsbury, Alberta.

**Here and There**

712. Commercial fruit production in Canada in 1930 had a value of \$19,224,970. Apples accounted for \$10,863,940 of that total.

For the year ended May 31, 1930, a total of \$2,037,678 was spent in Canada for cut flowers showing that Canadians still have a strong penchant for saying it with flowers.

As a barometer of business conditions in Nova Scotia it may be stated that in 1930 there were 129 new companies incorporated as compared with 118 for the previous year.

A consignment of 120,000 pounds of dried hake from Didsbury has been shipped by way of Yarmouth to Rio de Janeiro, Brazil, and Nova Scotian exporters believe this may be the beginning of a steady trade in this line.

Over fifty per cent. of the raw leaf tobacco used in the Canadian tobacco industry is now produced in Canada. Less than two per cent. of the tobacco consumed in the Dominion is imported in manufactured form.

At end of February 7,231,950 bushels of wheat had entered Saint John over Canadian Pacific lines as compared with a movement of 3,559,677 bushels during the similar period of 1930.

**Melvin Notes.**

Miss Evelyn White spent a few days at her home last week.

Miss Dorothy Youngs spent Easter at home.

Miss Marion Johnston is spending the week at Mrs. Cliff Gibbs.

Mr. and Mrs. A. Krebs spent Sunday evening at Mr. and Mrs. A. Esler's.

Mrs. A. Esler and Mrs. Carmichael spent Good Friday at L. Chandler's.

Miss Mildred Brown and Miss Bissett spent the holiday with Mr. and Mrs. Davies.

Mr. and Mrs. Peter Johnston and Arthur Good spent Easter at Three Hills with Mr. and Mrs. Vetter.

Mrs. Geo. Smith and daughters and Mr. Milton Ford spent Sunday at Mr. and Mrs. Elmer Cowitz's.

Mr. and Mrs. Gale and family of Three Hills spent Easter at the home of Mr. and Mrs. Glen Johnston.

Mrs. Whiteside visited in Calgary last week. She was accompanied by her daughter, Mrs. Cliff Gibbs.

A number of our young folks were entertained at a surprise party given for Dorothy Youngs. Everyone reported a good time.

We are pleased to report that Mrs. Wm. White, who has been ill for some time is improving nicely. She is being nursed by her daughter Marjory.

We are sorry to lose Mr. and Mrs. Rands from our district. They have bought a farm at the new town of Cremona. We wish them all success.

Messrs. Chas. Foss, Edgar Wiggins, Jack O'Connor and O. O. Swingle report having had a splendid time and a good dinner at Lee Swingle's on Sunday.

Mr. J. Whiteside has returned from his trip east and reports his mother somewhat improved in health. Mr. David Whiteside was also home to see his mother and many from here will remember Dave when he was in Didsbury. He now lives in California.

There was a very good turnout at the club on Saturday night. Next Saturday will witness the last club night of the season and as it is the end of the club year, election of officers and other business will be dealt with. A large crowd is looked for and we hope many members will sign up for the new year. Several of our young people have charge of the social part of the program.

**RUGBY NOTES**

The April meeting of the W.L. club was held at the home of Mrs. J. Clarke. Twenty-one members were present. "Agriculture," the topic for the day was taken by Mrs. Johnston, and "Current Events" were given by Mrs. Evans. Miss O'Shaughnessy and Miss Rogers from the O.S.A. acted as judges for our local contest and the prizes were awarded to Mrs. O. Krebs and Mrs. A. Hogg. A pleasant half-hour was spent over the topic, then the members scattered to their several destinations to meet again next month at the home of Mrs. C. Brown.

The benefit dance held on April 1st was very well attended, everyone enjoying themselves, and it was at a very late or rather we should say at a very early hour when the lights went out and the last car headed for home. Proceeds amounted to \$22.95.

WILL TRADE—Seed oats or lumber for feeder pigs or dry cows.

E. COGSWELL,  
Phone 1711.

**DDD for acne and eczema**

An active fluid that attacks disease germs in the skin. In harmony with the theory of the greatest living skin specialists. It has had many brilliant successes over skin disease.

H. W. Chambers

**Mountain View Notes**

Miss Doris Brown returned from Calgary to resume her duties at Mona School on Thursday.

Gardening operations have commenced down several basements. We would like to hear what success the experimenters have.

We hear that Mr. Everett Blair has become a salesman. Good luck to him who is known to some by the name of "Billings."

At the recent municipal election residents in Division 2 turned out en masse to exercise their franchise. W. D. Archer was elected the new councillor.

Calgary was the mecca of numerous people from this district during Eastertide, but most visitors were pleased to return to their homes as the city wore a wintry look this holiday season.

**TO THE GOTHERS.**

All the young gophers are out of their holes. And are running all over the prairie in shoals.

Now all the good boys have their weapons prepared. And will assist Mr. Farmer to kill them all dead.

Then get your reward, but not a gold star. Oh no, this time just a cent and a half.

But doubtless each tail will produce a laugh. And ere you return to your desks at school.

Several neighbors will exclaim "Well, that boy's no fool."

For here you see at the office in town.

He stands in the doorway, but not with a frown.

Boldly he enters Municipal Hall. Among his schoolmates, kinsmen, brothers and all.

His cap in one hand, his face without dread. To receive the amount for the tails of the dead.

Says Mr. Brusso, "You've done a good deed, And helped Mr. Farmer in time of need."

—ORIGINAL.
